

# SAIFEE HOSPITAL

under the auspices of Saifee Hospital Trust Reg. No. E-5448 (Bom)

## Department of Peritoneal Surface Oncology

### For the treatment of Peritoneal Surface Malignancies (PSM)

Saifee Hospital has the distinction of starting the first **Department of Peritoneal Surface Oncology**, with state of the art facilities including the GAMIDA SUNCHIP HIPEC machine, which was the first dedicated HIPEC machine in the country and a dedicated team of trained professionals to deliver optimum results.

#### **What is HIPEC?**

HIPEC stands for Hyperthermia Intraperitoneal Chemotherapy. The procedure is a unique combination of heat and chemotherapy, primarily used to treat patients with cancers that have spread within the abdominal cavity. The procedure includes a physical removal of all visible tumors, followed by a 90 minute internal bath of heated chemotherapeutic solution.

#### **HIPEC is used to treat the following diseases**

- Colon cancer
- Appendix cancers
- Ovarian cancers
- Pseudomyxoma Peritonei
- Mesotheliomas and primary peritoneal cancers
- Gastric cancers
- The use of HIPEC has been extended recently to other types of cancers, such as endometrial cancers, DSRCT, HCC and other rarer tumors.

**Saifee Hospital is  
one of the few centres  
in the country that offers  
HIPEC surgeries**

15 / 17 Maharshi Karve Marg, Mumbai - 400 004.

**Tel. : (022) 6757 0111, Extn. 233 / 236**
